

REMARKS

Claims 1-55 are pending in the application and are subject to restriction and election of species requirements. Applicants have elected Group I, and the species glycolic acid, both elections being made with traverse. Applicants also have elected the species terbinafine. Claims 1-4, 29, and 31-55 read on the elected species. Applicants appreciate that some of these claims may be withdrawn as being drawn to a non-elected invention (e.g., method claims 37-55), and applicants respectfully request that these method claims be rejoined with the elected complex claims, in accordance with MPEP §821.04.

Applicants believe that no additional fees are due to consider and enter this response. In the event that a fee is due however, the Commissioner is authorized to charge the undersigned's deposit account No. 50-0206.

Respectfully submitted,
